- And taking action to enable all children to have the best outcomes.

**Child Protection** is defined in the Children Act 1989 (s.47) as when a child is suffering or is likely to suffer significant harm. Under statutory guidance and legislation action must be taken to safeguard and promote the child's welfare.

**This policy applies to all staff in our academy.**

## 1.2 Introduction

At Excalibur Academies Trust and its schools, safeguarding and promoting the welfare of children is **everyone's** responsibility. **Everyone** who comes into contact with children, their families and carers, has a role to play.

In order to fulfil this responsibility effectively, all professionals should make sure their approach is child-centred. This means that they should always consider what is in the **best interests** of the child.

We take an '**it can happen here**' approach where safeguarding is concerned.

**Everyone** who comes into contact with children has a role to play in identifying concerns, sharing information and taking prompt action. Victims of harm should **never** be given the impression that they are creating a problem by reporting abuse, sexual violence, or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

Excalibur Academies Trust and its schools are committed to safeguarding and promoting the welfare of children by:

- The provision of a safe environment in which children and young people can learn and thrive.
- Acting immediately on concerns about a child's welfare.
- Fulfilling our legal responsibilities to identify children who may need early help or who are suffering, or are likely to suffer, significant harm.

### Equality statement

We are committed to anti-discriminatory practice and recognise children's diverse circumstances. We ensure that all children have the same protection, regardless of any barriers they may face. Our trust wide Equality, Diversity and Inclusion statement and strategy can be found [here](#).

Staff are aware of the additional barriers to recognising abuse and neglect in children with Special Educational Needs and Disabilities (SEND) and those with medical conditions, in line with our Special Educational Needs and Disability Policy ([here](#)), Children with Medical Health Needs Who Cannot attend School Policy ([put a link to your policy here](#)) and Supporting Children with Medical Conditions ([put a link to your policy here](#)).

We adhere to the principles of anti-oppressive practice in line of the [United Nations Convention of the Rights of the Child](#) and the [Human Rights Act 1998](#).

### Current legislation and National / Local Guidance

All action taken by Excalibur Academies Trust and its schools will be in accordance with the following current legislation and national/local statutory guidance:

**Working Together to Safeguard Children (2023)**, which sets out the multiagency working arrangements to safeguard and promote the welfare of children and young people and protect them from harm; in addition, it sets out the statutory roles and responsibilities of schools.

**Keeping Children Safe in Education (2025)** is statutory guidance issued by the Department for Education which all schools and colleges must have regard to when carrying out their duties to safeguard and promote the welfare of children.

**Delete this section if a secondary school** **Early Years Foundation Stage statutory framework (2024)** is statutory guidance which sets standards that school and childcare providers must meet for the learning, development, and care of children from birth to 5.

- All new staff are on-boarded and receive induction in line with *KCSiE* part 1.

## 1.6 Safeguarding in the curriculum

**Academy** is dedicated to ensuring that students are taught about safeguarding, including online safety. We recognise that a one size fits all approach may not be appropriate for all students, and a more personalised or contextualised approach for more vulnerable students, victims of abuse and some SEND children might be needed.

This is part of a broad and balanced curriculum and their personal development offer.

We follow the curriculum requirements as set out in *KCSiE* 2025. The curriculum is shaped to respond to safeguarding incident patterns in the setting identified by the Designated Safeguarding Lead and safeguarding team (e.g. to respond to an increase in bullying incidents).

School will provide engagement opportunities with parents and carers to consult on key aspects of the curriculum, according to the local context.

## 1.7 Whistleblowing

The Trust has a Whistleblowing policy ([here](#)) detailed within its Employment Manual, available to all Trust employees and volunteers.

## 1.8 Safer recruitment and safer working practice

**Academy** pays full regard to the safer recruitment practices detailed in *Keeping Children Safe in Education* (2025; Part 3)

## PART 2: Procedures

All procedures can be found in detail in the Safeguarding Handbook. This is available to all staff as an internal document.

### 2.1 Reporting concerns

All staff are clear about recording and reporting concerns in a timely way. In the case where a student is in immediate danger, staff should phone the police.

All staff are aware of and follow the procedures to respond to a concern about a child detailed in the Safeguarding Handbook. This includes responses to child-on-child harm and students who present with a mental health need.

At **Academy** students can raise their concerns by **(complete for your academy here)**. All concerns will be treated seriously.

### 2.2 Information Sharing

**Academy** is committed to have due regard to relevant data protection principles which allow for sharing (and withholding) personal information as provided for in the Data protection Act 2018 and UK General Data Protection Regulations. This includes how to store and share information for safeguarding purposes, including information which is sensitive and personal and should be treated as 'special category personal data'.

Staff at the setting are aware that:

- 'Safeguarding' and 'individuals at risk' is a processing condition that allows practitioners to share special category personal data.
- Practitioners will seek consent to share data where possible in line with Information Sharing for Safeguarding Practitioners 2018.

There may be times when it is necessary to share information without consent such as:

- To gain consent would place the child at risk;
- By doing so will compromise a criminal investigation;
- It cannot be reasonably expected that a practitioner gains consent; or
- If by sharing information it will enhance the safeguarding of a child in a timely manner, but it is not possible to gain consent.

There are also times when **Academy** will not provide pupil's personal data where the serious harm test under legislation is met, (by sharing the information the child may be at further risk). When in doubt **Academy** will seek legal advice; working alongside the Data Protection Officer.

**The Data Protection Act 2018 and UK GDPR do not prevent the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to safeguard and promote the welfare and protect the safety of children.**

## 2.3 Multi-agency working

**Academy** is a relevant agency in the **(add name of LA)** Safeguarding Vulnerable People Partnership and will work together with appropriate agencies to safeguard and promote the welfare of children including identifying and responding to their needs. This is in compliance with statutory guidance Working Together to Safeguarding Children 2023.

Occasions that warrant a statutory assessment under the Children Act 1989:

- If the child is in need under s.17 of the Children Act 1989 (including when a child is a young carer and or subject to a private fostering arrangement).
- Or if the child needs protection under s.47 of the Children Act 1989 where they are experiencing significant harm, or likely to experience significant harm.

Referrals in these cases should be made by the DSL (or Deputy DSLs) to Children's Social Care in the local authority in which that child resides. The list of safeguarding contact and other key agencies are listed in [Appendix B – Reporting concerns](#).

Where the child already has a social worker, the request for services should go immediately to the social worker involved or, in their absence, to their team manager. If the child is a child in care, notification should also be made to the Local Authority Virtual School.

**Academy** will co-operate with any statutory safeguarding assessments conducted by children's social care: this includes ensuring representation at appropriate inter-agency meetings such as child protection conferences and core group meetings.

### **Additional considerations:**

- Where a student and/or their family is subject to an inter-agency child protection plan or a multi-agency risk assessment conference meeting, the setting will contribute to the preparation, implementation, and review of the plan as appropriate.
- In situations where a child in care may be put on to a part-time timetable, attend an alternative provision or be suspended or excluded, the school will consult with the relevant Virtual School following local procedures.
- If a crime has been suspected or committed that involved the bringing of an offensive weapon on to the school site, the setting will liaise with the Local Authority Violence Reduction Unit who will consider a proportionate response.

- If there is a risk of harm, the police should be called via 999. For other concerns of criminality, the non-statutory guidance 'When to Call the Police' from the NCPCC can be helpful or contact the local PCSO/School Police Beat Officer/School Officer.
- In the rare event that a child death occurs, or a child is seriously harmed, **Academy** will notify the Local Partnership as soon as is reasonably possible and the Excalibur CEO and Head of Safeguarding. This would be deemed a critical incident and follow our trust critical incident procedures.

## 2.4 Suspensions, permanent exclusions, and commissioning of Alternative Provision

(To be read in conjunction with the Behaviour Policy and Suspensions and Exclusions Policy).

When the setting is considering suspending or permanently excluding a student where additional vulnerability is identified, it is important that the student's welfare is a paramount consideration. The Principal will consider their legal duty of care when sending a student home.

**Academy** will exercise their legal duties in relation to their interventions. This includes:

- whether a statutory assessment should be considered in line with the principles of Children Act 1989
- that decisions are made in an anti-discriminatory manner in line with the Equality Act 2010 (including having regard to the SEND Code of Practice)
- and takes into consideration the student's rights under the Human Rights Act 1998
- interventions will be consistent with statutory guidance School suspensions and permanent exclusions - GOV.UK ([www.gov.uk](http://www.gov.uk))

## 2.5 Actions to take

- An assessment of need should be undertaken with multi-agency partners with a view to mitigate any identified risk of harm.
- If the child is subject to a child protection plan or where there is an existing child protection file, we will call a multi-agency meeting.

### **Commissioning Alternative Provisions (updated with information added to Keeping Children Safe in Education 2025)**

In the event where **Academy** commissions an Alternative Provision, they will follow local guidance to ensure the clear agreement of roles and responsibilities to maintain safeguarding arrangements for students who are not taught on site.

**Academy** will continue to be responsible for the safeguarding of the child and should be satisfied that the placement meets the child's needs. Written confirmation from the alternative provider will be obtained detailing the appropriate safeguarding checks on staff (these are checks that we would otherwise perform for our own staff).

The academy will obtain written confirmation from the alternative provider that they will inform the commissioning school of any arrangements that may put the child at risk (i.e. staff changes), so that the commissioning school can ensure itself that appropriate safeguarding checks have been carried out on new staff.

**Academy** will know where a child is based during school hours. This includes having records of the address of the alternative provider and any subcontracted provision or satellite sites the child may attend. The academy will regularly review the alternative provision placements they have in place. Reviews should be frequent enough (at least half termly) to provide assurance that the child is regularly attending, and the placement continues to be safe and meets the child's needs.

Where safeguarding concerns arise, the placement should be immediately reviewed, and terminated, if necessary, unless or until those concerns have been satisfactorily addressed. This concern will be communicated to our Head of Safeguarding.

Our Alternative Provision Procedures adhere to the following guidance documents:

[Alternative provision - GOV.UK](#)

[Education for children with health needs who cannot attend school - GOV.UK](#)

## 2.6 Children Missing from Education/Absent from Education

(To be read in conjunction with the Attendance Policy)

Children being absent from education for prolonged periods and/or on repeat occasions can act as a vital warning sign to a range of safeguarding issues including neglect, child sexual and child criminal exploitation - particularly county lines. It is important the school or college's response to persistently absent pupils and children missing education supports identifying such abuse, and in the case of absent pupils, helps prevent the risk of them becoming a child missing from education in the future. This includes when problems are first emerging but also where children are already known to local authority children's social care and need a social worker (such as a child who is a child in need or who has a child protection plan, or is a looked after

child), where being absent from education may increase known safeguarding risks within the family or in the community.

Staff should follow procedures for unauthorised absence and for dealing with children that go missing from education, particularly on repeat occasions. These should be reported to the DSL and reviewed.

**Academy** will follow the guidance detailed in Children Missing Education (2016) and Working Together to Improve Attendance (2024). This will include notifying the local authority in which the child lives:

- of any pupil who fails to attend school regularly,
- or has been absent without the school's permission for a continuous period of 10 school days or more, at such intervals as are agreed between the school and the local authority.
- All schools are legally required to share attendance and sickness returns with their local authority. This process will be defined by the local authority in accordance with the statutory guidance *Working Together to Safeguarding Attendance 2024*.

### **Elective Home Education**

**Academy** will notify the Local Authority of every student where a parent has exercised their right to educate their child at home. Safeguarding files should be shared with the Local Authority Elective Home Education service and consideration of whether additional support from children's social care should be made in line with the Children Act 1989.

## **2.7 Respond to incidents of child-on-child harm**

All staff should recognise that children can abuse their peers (including online). It is important that incidents of abuse and harm are treated under the safeguarding policy in conjunction with the behaviour policy and anti-bullying policy. However, concerns regarding the welfare of students requires records to be kept on the child's safeguarding file.

Further examples of child-on-child harm can be found in the Safeguarding Handbook. It is recognised that child-on-child abuse can happen inside and outside of school or online.

At **Academy**

- We have a 'zero tolerance' approach to abuse. Incidents are taken seriously. These will never be tolerated or passed off as 'banter,' just having a laugh' or 'part of growing up.' Banter and teasing can and should be acknowledged and recognised as bullying behaviour and require proportionate intervention.

- Even with a zero-tolerance approach, we take steps to educate and take action to mitigate the risk of contributing to a culture of unacceptable behaviours or a culture that normalises abuse.
- It is understood that child-on-child harm may reflect equality issues in terms of those who may be targeted are more likely to have protected characteristics.
- Early identification of vulnerability to child-on-child harm is made by reviewing attendance, behaviour, attainment and safeguarding records at least on a termly basis.

There are clear systems in place (which are well promoted, easily understood and easily accessible) for students to confidently report abuse knowing their concerns will be treated easily as reflected in section 2.1 [Reporting concerns](#) of this policy. Academy will handle initial reports of harm by:

- Securing the immediate safety of students involved in an incident and sourcing support for other students affected.
- Listening carefully to the child, being non-judgmental, being clear about boundaries and how the report will be progressed, not asking leading questions and only prompting the child where necessary with open questions – where, when, what, etc.
- Ensuring that victims will never be given the impression that they are creating a problem by reporting abuse, sexual violence, or sexual harassment. They will never be made to feel ashamed for making a report.
- Ensuring the child's wishes are taken into consideration in any intervention and any action is taken to ensure safety of the student and other members of the wider peer cohort.
- Not promising confidentiality as it is highly likely that information will need to be shared with others.
- Report and record the incident following; your usual safeguarding procedures.

### **Actions to take in relation to sexual violence and sexual harassment.**

Reference to *Keeping Children Safe In Education (2025, Part 5)* should be made in relation to taking protective action. Schools should also refer to the sexual harassment section of the Safeguarding handbook for more information. **Academy** will follow this guidance when responding to incidents of sexual violence and sexual harassment.

### **Contextual safeguarding approach to child-on-child harm:**

**Academy** will minimise the risk of child-on-child abuse by taking a contextual approach to safeguarding by increasing safety in the contexts of which harm can occur – this can include the school environment itself, peer groups and the neighbourhood.

Following any incidents of child-on-child harm, the DSL/Deputies will review and consider whether any practice or environmental changes can be made in relation to any lessons learned. E.g. this could be noted in a risk assessment after the incident; including what action was decided upon as well as the date, time and location of the incident. This can include making changes to staffing and supervision, making changes to the physical environment and considering the utilisation and delivery of safeguarding topics on the curriculum.

## 2.8 Preventing Radicalisation – The Prevent duty

All schools and colleges are subject to a duty under section 26 of the Counter-Terrorism and Security Act 2015 (the CTSA 2015), in the exercise of their functions, to have “due regard to the need to prevent people from being drawn into terrorism”. This duty is known as the Prevent duty.

The Prevent duty should be seen as part of schools' and colleges' wider safeguarding obligations. Designated safeguarding leads and other senior leaders should familiarise themselves with the revised [Prevent duty guidance: for England and Wales](#), especially paragraphs 57-76, which are specifically concerned with schools (and also covers childcare).

The guidance is set out in terms of four general themes:

- risk assessment,
- working in partnership,
- staff training, and
- IT policies.

Our academy also has a prevent risk assessment that is updated annually.

## 2.9 Responding to allegations of abuse made against professionals.

Staff must report any concerns or allegations about a professional's behaviour (including supply staff, volunteers, and contractors) where they may have:

- behaved in a way that has harmed a child or may have harmed a child.
- possibly committed a criminal offence against or related to a child.
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children; or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children.

**Immediate action must be taken: see Safeguarding Handbook.**

### Low-level concerns

This should be read in conjunction with the staff Code of Conduct, *Keeping children Safe in Education (2025)* and Excalibur's Low Level Concerns Procedure. A low-level concern is not insignificant. This process should be used in events where a concern about professional conduct does not meet the threshold set out at the beginning of this section. All low-level concerns should be reported to the Principal, or if about the Principal the concern is reported to the Head of HR.

## 2.10 Mental health and wellbeing

Schools and colleges have an important role to play in supporting the mental health and wellbeing of their students. Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation, and or may require early help support.

**Academy** will commit to undertake the following.

- The appointment of a senior mental health lead who can support the development of knowledge and act as a point of expertise to promote the wellbeing and mental health of students. This colleague will have sufficient training in mental health and safeguarding for them to carry out their role effectively.
- Early identification of vulnerability to mental health problems by reviewing attendance, behaviour, attainment, and safeguarding records at least on a termly basis.
- Ensure that students can report and share concerns in line with section 2.1 [Reporting concerns](#) of this policy.
- Staff will follow a safeguarding process in terms of reporting concerns outlined so the DSL/Deputy DSLs (and wider members of the safeguarding team such as the SENDCo) can assess whether any other vulnerabilities can be identified and proportionate support considered.
- Staff will ensure the immediate health and safety of a student who is displaying acute mental health distress. This may require support from emergency services via 999 if the learner is at risk of immediate harm.
- DSLs/Deputies will consider whether a case can be managed internally, through early help, or should involve other agencies as required in line with section 2.3 [Multi-agency working](#).
- The setting will communicate and work with the student and parents/carers to ensure that interventions are in the best interests of the child.
- DSLs will liaise with staff to ensure reasonable adjustments are made and develop ways to support achieving positive educational outcomes.

- Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem – DSLs and the senior leadership team should be able to access specialist advice through targeted services or through their locality (please see link below).

### Contextual safeguarding approach to mental health

**Academy** will ensure that preventative measures in terms of providing safeguarding in the curriculum, providing opportunities for students to identify when they may need help, and to develop resilience.

The setting will take a 'whole school approach' to:

- deliver high quality teaching around mental health and wellbeing on the curriculum;
- having a culture that promotes mental health and wellbeing;
- having an environment that promotes mental health and wellbeing;
- making sure pupils and staff are aware of and able to access a range of mental health services;
- supporting staff wellbeing; and
- being committed to pupil and parent participation.

## 2.11 Online Safety

Online safety is an integrated and interwoven theme with other safeguarding considerations. It is essential that the DSL takes a lead on ensuring that interventions are effective. This means coordinating support and engaging with other colleagues in the setting who may have more technological expertise such as the IT team.

**Academy** is committed to addressing online safety issues around content, contact, conduct and commerce. This includes:

- Ensuring that online safety is concerned in relevant policies and procedures.
- Online safety is interwoven in safeguarding training for staff and safeguarding on the curriculum for students.
- Acknowledging that child on child abuse can happen via mobile and smart technology between individuals and groups. This should be approached in

the same process outlined in section 2.7 [Respond to incidents of child-on-child harm](#) and read in conjunction with the [Academy's](#) policy on online safety.

- Provision of education via remote learning will comply with governmental advice [Safeguarding-and-remote-education - GOV.UK \(www.gov.uk\)](#)
- Ensuring their setting has appropriate filtering and monitoring systems in place and regularly review their effectiveness. They should ensure that the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified. They should also ensure that the filtering monitoring standards are understood and met.
- The effectiveness of the setting's ability to safeguard students in respect to filtering and monitoring, information security and access management alongside the above will be reviewed at least annually.
- [Academy](#) aims to harness the benefits of AI while mitigating potential risks and ensuring that staff and students are given a model in which AI can be employed safely. Our [AI Reasonable use policy](#) outlines our approach to implementing and using AI in our settings. The academy is expected to follow the regulatory principles as detailed in:

## 2.12 Police and Criminal Evidence Act (1984) – Code C

The Designated Safeguarding Lead (and deputy) are aware of the requirement for children to have an appropriate adult when in contact with Police officers who suspect them of an offence and the regulations around this. See Safeguarding Handbook.
